Continuation of Substance of Interview including description of the general nature of what was discussed: Examiner informed the Applicant's attorney of the record that the limitations "to store", "to receive", "send", "for processing", "to retrieve" in claim 58 creates ambiguity of whether, if any of the above process are actually being carried out, which subsequently result in 112 issues. Applicant's attorney was further informed that overcoming the above issue would result the claim language to overcome the Fox and Krause references. It was agreed that the above limitations in the claim be replaced by "storing", "receiving", "sending", "processing", "retrieving" respectively, by an Examiner amendment. It was further agreed that claims 58-60 will be amended by Examiner amendment to correct typo errors if any. Examiner further informed Applicant's attorney that the final search will be conducted based on the amended claim and allowability of the claims would be dependent on the outcome of the final search..
